Sire:

**\*\*Dewormed with Pyrantel 2wks & 4wks & 6 wks**

**Feeding Schedule:** Purina Pro Plan or Diamond Naturals(toy/ small breed puppy) 7am 11am 3pm 7pm  
Feed approx 1/4 cup per meal offer 3-4 times a day. \*Do not change food until after vaccines are complete. Appetite might not be great the first day as they are adjusting, just keep offering throughout the day. Make plenty of water bowls available in several places. I keep them on puppy food until 6 months old then transition to adult small breed food. I also top food with a variety of nutritious options like boiled chicken & rice, Stella and Chewy or Primal freeze dried crumbles (avoid people food that could upset their stomach.)

The health of the puppy is guaranteed for the first 72 hours of leaving my care. I recommend getting your puppy checked by your vet during this timeframe. I honor a 1 yr guarantee for any genetic disorder detected by a licensed veterinarian. **\*\*While not fully vaccinated: Buyer agrees to keep puppy out of pet stores and away from other unknown animals or public places/parks/grassy areas until the puppy has received all required vaccinations.** Puppy has been given a complete health check by my vet, and 1st round of DHPP. Vet record is included in the puppy's folder. Next set of vaccines are due as follows: **Every 3-4 weeks until 4 rounds are complete. \*\*Please get your puppy on heartworm and flea prevention at first vet appt.And recheck fecal\*\*** **I do not recommend the Leptospirosis vaccine** as many dachshunds have a bad reaction to it. If you elect to give it, schedule it separate from all other vaccines.

**\*\*Initial here\_\_\_\_\_\*\*Buyer agrees to Spay/Neuter and Microchip by 8 months of age**

**\*\* Initial here\_\_\_\_\_\*\*Buyer agrees to notify Seller (Marcie Lawless) if he/she is unable to care for, or keep this puppy. Ruffhouse Dachshund puppies are always welcome back into our home at any age and for any reason at any time. \*\*Buyer agrees to return to me if this situation arises\*\*.**
